PERMANENT CONCRETE ANTI-DETERIORATION PROTECTION

# Brick and Stone Cover

## Universal Stone and Brick Protection

### Invisible Water Repellent

- Protective water repellent for stone and brick
- Deep penetration without altering appearance
- Long-lasting protection for horizontal & vertical surfaces
- Increases durability
- Breathable—fills pores without forming a surface film

### Environmentally Friendly

- Prevents mold, bacteria, salt deposits, and efflorescence
- Keeps spaces clean and healthy
- Colorless, odorless, non-toxic, safe for people and the environment
- Ideal for green building
- Reduces moisture absorption, improving energy efficiency and maintenance savings

### Versatile Protection

- Works on porous stones like tuff, limestone, sandstone, and travertine
- Odorless, colorless, and non-toxic
- One application preserves the original look
- Ready-to-use and easy to apply
- Best applied by spraying with a low-pressure pump
